DANISH DESIGN AFFORDABLE LUXURY

HOUE // THE STORY

HOUE is a Danish design house founded in 2007. We are driven by a passion for Affordable Luxury and a desire to benefit from the vast pool of gifted design talents in Denmark. We mix beautiful and innovative design with mass appeal.

Today HOUE offers both an outdoor and indoor collection always meeting our high standards in terms of design, affordable prices and quality.

HOUE INDOOR // DINING TABLE CONCEPT

At IMM in Cologne HOUE will present our TOGETHER dining table concept.

TOGETHER consists of 5 dining table designs: AIR, GATE, SKETCH, FLOAT and ATLAS. All tables come in different sizes and shapes. This combined with a choice of laminates and linoleum surfaces makes a wealth of possibilities

HOUE INDOOR // DINING CHAIRS

The chair concept includes 3 well proportioned and very comfortable designs: ACURA, HOPE and SPÄN. With a choice of leather or different fabric types and colours combined with 4 different leg types it is possible to change the look of the chair according to customer needs. All dining chairs compliment the TOGETHER dining table concept perfectly.

HOUE // INDOOR NEWS

The dining table ATLAS, dining chair SPÄN and lounge chair SPÄN are all new introductions.

The legs of the new ATLAS Dining table are trestles - quite simple and straightforward, and yet with a line feed that breaks the straight lines and titillate the eye. ATLAS is in solid oak, and with the natural glow creates a natural and nice contrast to the dark and light surfaces in linoleum or laminate.

We are proud to present our new designs SPÄN Dining chair and SPÄN Lounge chair. Designer Henrik Pedersen describes SPÄN this way:

"It's all about connecting the points - building bridge between the wooden columns that are making up the support frame, about creating a plateau for resting, and thereby also becoming a highly visual element.

The curved joints make it very expressive, and smooth for both hand and eye".

SPÄN comes with white ash or black stained ash legs and seat in different fabrics and beautiful colors.

Welcome ATLAS and SPÄN!

FACES BEHIND HOUE DESIGNS

DESIGNER // HENRIK PEDERSEN

Does design really matter? perhaps not – but for me it's essential. it gives me a thrill to design forms and functions that are capable of moving people passionately and opening up new possibilities.

Passion for design is in my mind, soul and heart, wherever i go.

And my main inspiration is neo-scandinavian design, influenced by the vibes of london and the humor of amsterdam, often with elements of fusion, resulting in materials and functions being combined in new and original ways, while always striving for a pure and simple look.

DESIGNER // JESPER K. THOMSEN

I see every day as a challenge to further improve whatever i designed the day before. this is my driving force, which constantly sends me in new directions. i draw inspiration from everything i meet on my way and don't subscribe to a specific design idiom or narrow professional speciality.

I always seek to develop my working field with new areas of interest and new partners. to me design is not about doing it alone but about nuturing the opportunities of teamwork.

As long as design has a clearly stated purpose there are no ends to the creative options you can apply.
