DANISH DESIGN

30 years of experience

Cane-line is a Danish design company with 30 years of experience in designing and manufacturing functional and comfortable furniture, intended to suit the needs of our customers. "Life made comfortable" is the very essence and DNA of Cane-line. Based on this, we have developed the concept "Cane-line Professional - when comfort matters" which is our offer to the professional market.

We aim to help you achieve the best possible solution. All over the world our mission is the same; to make life comfortable and add value to life. We are constantly focusing on quality, comfort and design in every detail of our furniture and we ensure that our furniture is made with the greatest care for the environment and well-being of people.

Cane-line design

Cane-line works with leading Danish designers. They all share deep roots in the Danish design tradition built on craftsmanship, quality and distinctive expression. They also share an understanding of our Cane-line vision "life made comfortable" which is integrated in every design.

Strong and silent design

Danish design is characterized by a simple and understated expression, which complements the architecture. The cool Nordic climate is our inspiration for the strong construction of the furniture. Our outdoor collection is designed to withstand frost and rain as well as strong sunlight. Shape follows function in our silent and classic designs, and all furniture is easy both to move and to store. Our indoor collection is a range based on natural materials, sculptural expressions and versatility that capture modern design.

MEET OUR DESIGNERS

Foersom & Hiort-Lorenzen MDD

Johannes Foersom and Peter Hiort-Lorenzen (MDD) are two of Scandinavia's most renowned and successful furniture designers. Their goal is to create long-lasting value, and to stimulate a healthy development for people and their surroundings. They strive towards the highest quality in cooperation, process and product, and believe that knowledge and innovation are fundamental. The impressive use of exibility makes the furniture appear as small architectonic wonders.

Strand+Hvass

Christina Strand (MDD) and Niels Hvass (MAA) are part of the new generation of Scandinavian designers. They believe that design itself is a strategy that can improve the conditions of human life, the environment and personal experiences. Additionally, they believe that design can be used as a tool to develop the competitive power and economic growth of society. Their design is usercentered and deeply rooted in the Scandinavian culture. Simplicity and well-balanced lines are the cornerstones of their work.

Welling/Ludvik

The design duo Welling/Ludvik, Hee Welling and Gudmundur Ludvik, are contributing to the renewal of environmentally friendly design centered around personal experience. They are defined by a pure aesthetic, stripping away excess and letting each detail serve a functional purpose. They aim to achieve the best possible solution as seen from a number of perspectives. Comfort, materials, construction, pricing and environment are all defining factors in their approach to design.

byKATO

ByKATO, Karl Rüdiger Rossell and Tonny Glismand, are dedicated to creating contemporary, highly usable products for everyday living. They aim to bridge the gap between commercial, industrial design and high-quality craftsmanship by using honest and justifiable materials and paying careful attention to even the smallest detail. Their mantra is to design products, which they would like to have themselves, so they always take starting point in their own needs. In this way it all comes from the heart and the required enthusiasm is always present.

Rikke Frost

Rikke Frost believes that the materials and their combination create a unique experience both visually, functionally and tactile. She is often fascinated by a material or a certain production method. Through the combinations of materials and by exploiting their properties, she creates a natural utility. The designs must be seen and felt. The idiom is recognizable and simple, focusing on colour, detail and surprising features that give the experience of a uniform design.

Jesper K. Thomsen

Jesper K. Thomsen believes that design and product development is about being realistic. He is experienced and known for creating simplified designs that solve complex challenges. It is about the right quality at the right price, and about durability. Fine sketches on the art board are worth nothing, if it cannot be produced at the right price or even be produced at all.

Cane-line design team

At Cane-line the core value for good design is comfort and we believe in the optimal mix between aesthetics and functionality. Our own internal design team is working every day with this in top of mind to create an optimal collection with unique products adding value to your life and making your life more comfortable. Cane-line design team is also working closely with our external designers.

A photograph of a swimming pool with a lounge chair in the foreground. The background is filled with lush green trees. The text is overlaid on a white rectangular area in the center of the image.

CANE-LINE PROFESSIONAL

We work closely with our partners

We act as a partner and provide tailor made solutions, which suit the physical environment and optimally meet the individual needs of our customers. With our collections, we can design your unique personal solution. We can be of assistance by our experienced staff, starting from the drawing of the floor plan to the assembly of our furniture. The classic and Scandinavian design has the advantages that our collections live long. Besides, we stock a large range of furniture, so you can easily replace or complement spaces with more furniture. We are global and present in more than 100 countries. With our financial AAA+ rating, you are guaranteed continuity and stability in the cooperation.

Comfortable lifestyle furniture

Contract furniture needs to be extremely rigorous, easy maintainable, versatile and above all, comfortable in use. Cane-line furniture is designed and conceptualized with these requirements in mind. We use only hardwearing, low maintenance materials that are weather-resistant in all conditions. Many of our furniture is stackable and can thus be easily stowed during the off-season.

All weather & low maintenance

With spaces under the open sky, low maintenance and easy cleaning of the furniture is an asset value in itself. From design to the selection of materials, all furniture is produced to live long. Our special Cane-line Airflow system with QuickDryFoam® offers a collection of comfortable furniture with an indoor feel and look, but with the features of weather resistant outdoor furniture, which allow cushions to dry shortly after a downpour. The QuickDryFoam® core also has anti-bacterial protection, reducing the risk of mould and mildew forming on the cushions.

BECAUSE WE CARE

We are social responsible

Consideration for the environment and people is thought into every part of our business from management to production of furniture. We are ISO14001 certified, which is the international environmental standard, and SA8000 certified, which is the standard for social accountability. A part of our efforts to comply with these standards, is documenting the performance of our suppliers and of course ourselves.

This is your guarantee, that we are committed to safeguarding people and the environment. Among other things, this means, that no child labour is allowed and that wage levels are fair and in accordance with local legislation. Furthermore, the materials used in the production of Cane-line furniture are environment-friendly as they are toxin-free and recyclable. We believe that responsibility goes beyond the design and production of furniture.

The UN Global Compact is a strategic policy initiative for businesses that are committed to aligning their operations and strategies with ten universally accepted principles.

Cane-line teak furniture is made from WWF-GFTN certified production in Indonesia. This is a guarantee that the teak production supports responsible forest management.

Cane-line is certified by the international certification DNV-GL (Det Norske Veritas): ISO14001:2015 and SA8000/2014

I CHOOSE CANE-LINE

Tivoli Oriente, Lisboa

Tivoli Carvoeiro, Algarve

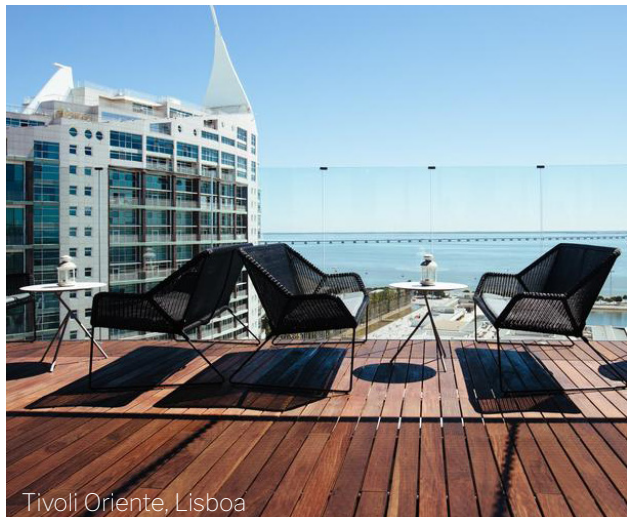

Tivoli Carvoeiro, Algarve

Tivoli Carvoeiro, Algarve

Hotel Tivoli, Coimbra

Tivoli Oriente, Lisboa

Miguel Rocha, Architect

Can you shortly describe yourself and your background leading to your current working position today?

I grew up in the family furniture business and it was always my goal to create my own company and projects. By analysing other companies, I wanted to create a different approach to the market and projects, hoping to become one of the top players in my field of expertise one day and every day, making great projects and clients happy.

What kind of projects do you do most of?

The projects I most work on are hotels, resorts, restaurants and private villas.

Where do you find your inspiration?

I can find inspiration in the most unexpected places and moments. However, the most important part of a successful project is to combine the clients vision and expectation and reinvent it through our eyes and creativity.

For how long have you been working with Cane-line?

For three years. We started working in 2016.

Why do you choose Cane-line as a partner?

Cane-line has a great combination of quality, design, price and an excellent customer service.

Which furniture is your favorite Cane-line furniture?

All Cane-line series have their own uniqueness. Honestly, I don't have a favourite. The chosen line is the one that flows with the project in question.

CONRAD HOTEL ALGARVE, PORTUGAL

Never Just Stay. Stay Inspired.

Conrad Hotels & Resorts is access to life as you want to live it. A place to experience service and style on your own terms. A place to connect with the world. A place to stay inspired. Conrad Algarve offers one-of-a-kind experience with sophisticated, locally inspired surroundings. Service that is more than personal, it's intuitive, and connections to people and places around the corner, and half way around the world.

AC HOTEL ATLANTA DOWNTOWN, NORTH AMERICA

A new way to experience Atlanta

Located in the epicenter of a vibrant downtown neighbourhood, AC Hotel Atlanta Downtown is the ideal destination for those looking to cultivate creativity, connections and memorable experiences. With interior design featuring a sleek, modern mixture of glass and marble, the hotel couples the cosmopolitan flair of the surrounding urban landscape with a touch of European sophistication. The tranquil Zen garden provides a welcome respite from the hustle and bustle of the city, while the AC Lounge – a dynamic co-working space by day and hub of social buzz by night – flows seamlessly with the lively urban landscape just beyond the lobby doors. Whether travelling for business or leisure, the hotel is an experience that offers a chic city stay with the warmth of the South.

SKOLKOVO GOLFCLUB, MOSCOW, RUSSIA

Aesthetic and beautiful design

The philosophy of the Skolkovo Golf Club is determined by the culture, values and traditions of golf: games where self-improvement becomes the main task. Golf is a social and individual game, where you find a community of like-minded people, but at the same time you will know yourself in moments of concentration, in moments of connection with nature. Golf is a game of aesthetes, where every detail matters: the beauty of the field, the quality of the equipment, the precision of the movements.

EMERALD WATERWAYS CRUISE, GERMANY

A new chapter in the world of river cruising

Emerald Waterways river cruise offers an unforgettable journey across some of the world's most enchanting rivers. From culture-rich cities to world-famous wine regions.

The deluxe fleet of revolutionary Star-Ships promise contemporary comfort and unique on-board innovations, while the generous fully-inclusive offering combines affordability with great dining, exceptional service and immersive itineraries across Europe and Asia.

Emerald Waterways take great pride in ensuring every journey is perfectly planned, and each guest enjoys a relaxing and insightful river cruise experience, whether one is sailing on-board the award-winning fleet or exploring a nearby town for the day. From the Danube, which dissects 10 European countries and nearly as many ancient capitals, to the mystic and

mysterious Mekong, which glides through the beauty of Cambodia and Vietnam; every river explored by Emerald Waterways offers a unique experience.

Interior contractor quality

Weingarten is an interior fitter for ships, non-residential properties and retail. They take care of the whole process from planning and designing of the interior fit-out including furnishings, fixtures and fittings, and they offer a complete portfolio of services, from interior design to the complete finish of cabins and decks. The philosophy: interior contractor quality with an optimum value for money.

CANE-LINE PORTAL

Universe of inspiration, design focus, high resolution images, 2D files, 3D files, technical sheets, electronic catalogues, press releases, marketing materials and manuals. Go to "For professionals" at cane-line.com.

Images & drawings

Find images of all products in high and low resolution. In addition to inspiring lifestyle images, you will find clippings of all products so you can easily integrate all products in your projects. 3D files in DWG and MAX format so you can import the data directly into your 3D program.

Manuals

Find information about maintenance, storing and cleaning of the different materials and products. Also find technical sheets covering every product series. All manuals can be downloaded and printed.

Press releases

Our press kits are available on our portal and include press releases in DK, DE and UK including related photos. In this way we can support you in your contact with the press as well as inspire you with descriptions and photos of our design news.

Marketing materials

To support your marketing and presentations, you will find Cane-line logos, flyers, catalogues, films, SoMe photos, ads etc. Our catalogues are electronic and can be browsed online. They are also available as PDF for easy download or for sending as an e-mail attachment.
