

IT'S ALL ABOUT TEAK

BESTSELLERS

 GLOSTER

GLOSTER'S PRODUCT HERO'S DEFINE THE COLLECTION. OUR CONSISTENT BESTSELLERS SPAN ALL CATEGORIES - FROM LOUNGE THROUGH TO DINING.

It's all about teak.

The benchmark hardwood for fine outdoor furniture for more than 700 years.

With a beautiful sheen and a soft natural finish, every piece of Gloster teak originates from carefully managed plantations and is thoroughly inspected to ensure that quality endures.

Teak is a close grained hardwood with a high natural oil content. This makes it hard wearing, highly resistant to rotting and almost impervious to the effects of sun, rain, frost or snow. These characteristics combine to make it the ideal timber for all outdoor applications.

Only premium grade plantation grown teak is used for the manufacture of Gloster furniture. The features of premium grade teak are a straight grain structure, the absence of knots, splits or cracks and an even overall colour.

Many things make Gloster's teak furniture exceptional. For example, the joints used are specifically chosen to provide the strongest means of joining the component parts together. Thanks to the use of kiln dried timber and our modern wood-working machinery, these joints are made to extremely tight tolerances, which means that they are always a perfect fit and there are no visible gaps between two pieces of joined wood.

CARVER + ARCHI

Scandinavian design meets shaker. At home in any contemporary space, Archi leaps creative boundaries, combining notes of modern architecture with a minimalist aesthetic.

It's all about CARVER

In the same way that an artist carves in stone or wood to create a unique form, the same way of thinking has been applied to the Carver tables, where the cross-rail and legs have been subtly sculpted, like pieces hewn from a solid block. These iconic tables are topped with either stylish, slatted teak or practical solid ceramic tops.

CARVER + 180

180's no-nonsense lines are a functional favourite. With design cues emulating traditional wooden furniture and a resilient combination of powder coated aluminium frames and weatherproof sling seats.

CARVER + SWAY TEAK

With Sway, Danish designer Henrik Pedersen has combined a finely proportioned teak frame with a practical sling seat and back to deliver inherent comfort despite an extremely minimal profile.

LIMA DINING

As an extension to the Lima modular lounge collection, Lima Dining talks the same design language – one of simplicity, honesty and a deep sense of quality and genuine craftsmanship.

LIMA DINING

Lima is an expression rooted in the Scandinavian tradition, where warm, natural and tactile materials are combined in a simple but aesthetic unity.

LIMA DINING

With nature very much in mind throughout the whole design, the variegated colour all-weather wicker features a subtle, distressed finish - giving the furniture a familiar and rustic feel.

It's all about LIMA

The essence of natural and tactile materials are brought together into one, defined element in the Lima collection by Henrik Pedersen.

Plantation teak, Wheat colour outdoor wicker, natural leather and soft-to-the-touch, textured fabrics combine in a subtle mix, where you can sit down, hang out, and feel the warm embrace of nature.

LIMA DINING

With practicality always in mind, the flexibility of the Lima collection elements ensures that you can configure your dining set however you like – square or rectangular tables, teak or ceramic tops, dining armchairs, side chairs or benches.

It's all about the scene

Open spaces release the heart and the soul. Vast horizons quietly and gently remind us of a freedom lost for centuries. It's no surprise we love the soft dawn, that we wonder at the ruby and amber of a sunset - lost momentarily as the world revolves.

But even nomadic people crave structure. We all need a silhouette against the bright wilderness. A glowing doorway amongst creeping darkness. To step through and to feel at home. We should never dream to improve upon nature, but we can aspire to compliment her.

LIMA + KAY

The backrest is unquestionably the defining statement of the Kay range. Beautifully curved for comfort, Kay embraces you as you sit offering comfort and shelter. Available in either Brindle, Harvest or Copper colour all-weather wicker combined with a delicate, plantation teak frame, Kay's lines combine timeless style with practical comfort.

DECK + BORA

The rounded expression of circles in the woven backs of Bora, create a soft and inviting seating comfort. Inspiring trust and guaranteeing stability, a wide, strong stance is artfully formed from plantation teak in a peerless combination of fine craftsmanship and classic, mid-century, Scandinavian style.

DECK + BORA

Available in two lengths of 289cm and 365cm, the Deck dining tables are conceived as the modern, contemporary alternative to Gloster's rustic RAW tables and crafted from generous cuts of the very best plantation teak, hand selected by our dedicated experts to ensure their perfection endures.

It's all about DECK

Broad, substantial, trusty and true, a ship's deck is literally the foundation of any voyage of discovery. Immaculately parallel lines of teak race top to bottom of Decks broad legs and flow into the expansive top in a feat of engineering beyond compare. These broad, long slats are finished with impeccable precision by talented craftsmen and women in a series of complimentary curves.

It's all about RAW

A story of passion told over as many as 70 years of growth. RAW furniture proudly displays every growth ring, every knot and every graceful ebb and flow of the wood grain formed as each of Gloster's plantation grown teak trees mature.

In normal mass production, timber is regulated, ordered, standardised to conform to strict manufacturing parameters. But with the RAW concept, we celebrate the unpredictable and reverse the irregularity of nature.

RAW + SWAY TEAK

With Sway, Danish designer Henrik Pedersen has combined a finely proportioned teak frame with a practical sling seat and back to deliver inherent comfort despite an extremely minimal profile.

RAW + ARCHI

Scandinavian design meets shaker. At home in any contemporary space, Archi leaps creative boundaries, combining notes of modern architecture with a minimalist aesthetic.

RAW

Be unique. A story of passion told over as many as 70 years of growth, you can share the journey with the RAW dining table collection.

GRID LOUNGE

A 2015 Red Dot Award winner, with matching coffee and console tables, the Grid collection screams taste and style with quiet confidence. When functionality is key and simplicity is the only design cue needed, Grid's elementary format is the perfect solution for deeply comfortable seating in a stylish world.

It's all about GRID

Grid – a name that describes both function and mind-set. When functionality is key and simplicity is a priority, Grid's elementary format is the perfect solution for deeply comfortable seating in a stylish world.

Conceived as a bridge between stark minimalist design and large-scale luxury, a few simple units form the basis of a totally flexible seating system combining individual elements to meet specific needs.

GRID LOUNGE

A natural extension of the Gloster colour palette - warm, earthy tones and subtle textures combine in a signature brown colour collection for Grid lounge. Java powder coat, Emperor ceramic and Blend Latte fabric create a dynamic palette that is both comforting and practical.

GRID LOUNGE

The recent addition of a series of Heritage fabrics feature a soft, textured finish - while Hunt fabrics display a subtle, geometric 'check' pattern in contrasting yarns to highlight the warm tone of the base fabric.

It's all about Lighting

Light and shadow make the shapes come alive. Like semi-transparent structures, they present themselves in the dark. A beacon calling out, inviting you in and creating an imaginary room with a soft and warm ambiance.

Illumination and warmth are always principal parts of the best social environments and the most modest of devices are often the most effective. The Ambient collection of outdoor lighting combines the worlds of simplicity and light to achieve beautiful background illumination. Weatherproof, solar charging LED light units mean no unsightly cables and remote, variable switching ensures effortless use.

COCOON

Mimicking the perfect texture and symmetry of silk cocoons, these minimal and delicate looking lanterns are deceptively tough. Manufactured from modern plastics and combined with a striking solid teak handle of almost agricultural purity, these practical outdoor lights are as much about design as they are about illumination.

It's all about ACCESSORIES

What is a home without a few unique enhancements to add that final touch of style? Solar powered, wireless outdoor lighting, practical yet stylish outdoor rugs, high and low coffee or side tables and parasols to provide welcome shade in the heat of the day. Combining tactile materials with beautifully detailed finishes, the Gloster range of accessory items are the stylish way to bring your outdoor experience to life.

BLOW

The soft lines and natural tones of these beautifully rounded ceramic bases combine perfectly with plantation teak table tops. Eye-catching and inspiring, these accent pieces beautifully reflect light across their soft, round surfaces.

AMBIENT RAY + MESH

Ambient Mesh & Ray by Henrik Pedersen present hints to rustic origins. The latticework of woven shades of Mesh and the expertly crafted teak slats of Ray both paint a subtle pattern in the dark - breaking up straight lines and creating a whole new set of outdoor decorations.

COSO

Bring sophisticated glazes in subtle hues to your life outdoors. The soft lines and natural tones of these beautifully rounded ceramic bases combine perfectly with plantation teak table tops. Eye-catching and inspiring, these accent pieces beautifully reflect light across their soft, round surfaces and compliment any item in the Gloster range while adding character to any outdoor space.

SEPAL

The Sepal collection finds its inspiration in the giant floating water lilies that somehow look as though they were engineered by a human hand. The tables use a ceramic top, edged in powder coated aluminium, which sits on a simple, but beautifully detailed, equilateral teak frame.
